ALLIANCE for SENSIBLE AIRSPACE PLANNING

Online Flight Tracking for Residents

Tracking loud and low flying aircraft over your home is very important. This will help your community to develop a noise contour and baseline.

By tracking these flights through online software yourselves, your town will have the necessary information to effectively petition airports, the FAA and airlines to engage in productive noise mitigation programs.

HOW TO TRACK FLIGHTS ONLINE:

1. **OPEN WWW.FLIGHTAWARE.COM OR WWW.PASSUR.COM**
2. **ENTER YOUR LOCAL AIRPORT CODE AND CLICK VIEW AIRPORT ACTIVITY BUTTON.**
3. **CLICK ON THE MAP UNTIL YOU LOCATE YOUR NEIGHBORHOOD.**
4. **CLICK ON THE AIRPLANE TRAVELING IN YOUR AREA TO SEE TAIL NUMBER, SOURCE AND DESTINATION AIRPORT CODES**
5. **ENTER FLIGHT INFORMATION INTO LOG.**
6. **SEND COMPLETED LOGS TO YOUR LOCAL TOWN GOVERNMENT AND COPY TO WOLF@AFSAP.ORG**
